

PC Hammer Crusher

Hammer Crusher is widely used in mining, cement, coal, metallurgic, construction materials, expressway industries. It is used for grinding the medium-hard brittle materials. The material will be ground by the striking between high-speed hammer and material. It possesses qualities of simple structure, large crushing ratio, and high-efficiency. Both dry and wet process crushers are available.

Main Specification

Model	Hammerhead Quantity (Pcs)	Input Size(mm)	Output Size(mm)	Capacity(t/h)	Power(kw)
PC400X300	16	<100	<15	5-10	4P-11
PC350X500	20	<100	<15	8-15	4P-18.5
PC600X400	20	<220	<15	10-25	4P-22
PC800X600	24	<350	<15	20-50	4P-55
PC800X1000	28	<400	<15	20-75	4P-75

PXJ High-efficiency Fine Crusher

High-efficiency Fine Crusher is designed by our engineers based on introducing advanced technology on this field and combining with different working conditions of international cement industry, mining, beneficiation, building material and so on. By taking the advantages of hammer Crusher and Impact Crusher ,this machine can highly improve working efficiency and reduce energy consumption. High-efficiency Fine Crusher has significant advantage in the field of crushing soft material features reliable operation, simple structure, convenient maintenance, high capacity, long service life.

Main Specification

Model	Feed Opening(mm)	Feeding Size(mm)	Output Size(mm)	Adjustable Size of Discharge Opening(mm)	Capacity (t/h)	Power(kw)
PXJ 800×400	400×185	<120	<5	5-20	20-45	37-45
PXJ 800×600	500×250	<180	<5	5-20	35-55	45-55
PXJ 800×800	550×330	<180	<5	5-20	35-65	45-55
PXJ 1010×1010	1000×350	<180	<5	5-20	45-75	55-75
PXJ 1200×1000	1200×400	<180	<5	5-20	70-110	90-110
PXJ 1200×1200	1200×450	<180	<5	5-20	90-120	110-132
PXJ 1400×1400	1500×500	<190	<5	5-20	100-150	160
PXJ 1600×1600	1600×550	<190	<5	5-20	170-250	250
PXJ 1800×1800	1800×800	<190	<5	5-20	250-310	315

PCZ Heavy Hammer Crusher

PCZ series hammer crusher is a new type of stone crusher based on PC series. In accordance with feedback from our clients and mining industry development trend, and we took the experimental data from stone crushing test base into account, PCZ series hammer crusher has been launched by WILLING Heavy Industry. Compared with other hammer crusher, it has many advantages such as larger diameter of hammer pin, heavier hammer and higher speed of linear velocity. The difficulties such as serious abrasion of hammer, break of hammer pin have been overcome. PCZ hammer crusher has big feed size capacity and better reduction ratio, otherwise, it costs lower in maintenance than traditional types. All these characteristics make PCZ hammer crusher the first choice in mining industry.

Main Specification

Model	Feed Opening(mm)	Working Diameter*Length of the Rotor (mm)	Power(kw)	Capacity(t/h)
PCZ-1308	850X800	1310X790	132	100-160
PCZ-1510	1000X850	1500X950	132X2	160-210
PCZ-1512	1210X900	1500X1160	160X2	220-270
PCZ-1615	1500X1200	1650X1452	200X2	360-420
PCZ-2015	1500X1400	2000X1500	250X2	450-500
